To Whom It May Concern:

I am writing to express my admiration for the work being done by the organization known as Containers2Clinics. This is an extremely creative effort to provide healthcare in places where it is desperately needed at a cost far less than virtually any alternative I have seen. I have met with Elizabeth Sheehan who is the founder and Chief Executive, and I am impressed both with her hardheaded approach to achieving this goal and to the passion she brings to it. This combination of intelligence, energy and organizational skill is greatly needed and her dedication to bringing healthcare to parts of the world where it has been insufficient – if not absent – is a worthy goal as I can think of. I am very pleased to express my support for this effort and to encourage all who are in a position to do so to help her with the resources she needs – which she will put to very good use.
